Message from the Minister

As Minister responsible for the *Public Service Act*, I am pleased to present the 2011-2012 Public Service Annual Report. This report provides information on the management and direction of the public service in Nunavut and it has been prepared in accordance with the legislative authority of the *Public Service Act*, the guiding principles of *Tamapta* and our commitment to Article 23 of the *Nunavut Land Claims Agreement*.

This past year has heralded a departmental reorganization and implementation of a Human Resources Strategic Framework to guide excellence in human resources practices. Standards of Practice were implemented for recruitment and significant gains measured in the average time taken to staff positions.

Cabinet approved a Legislative Framework for the preparation of a new Public Service Act and progress was made on consequential drafting towards this ground breaking new legislation that will reflect the Nunavut Land Claims Agreement and Nunavummiut culture and heritage. It will include the progressive and innovative

labour practices of the Government of Nunavut, developed through our partnerships with our public service members and collective bargaining units.

Additional achievements include the planned implementation of a new Code of Values and Ethics, an updated Harassment Free Workplace policy and directive, and a new directive to create best practice and process in the resolution of workplace conflict.

In accordance with Section 3(2) of the *Public Service Act*, I have the honour of submitting the Public Service Annual Report for the period of April 1, 2011 to March 31, 2012.

The Honourable Monica Eli
Minister of Human Resources

Inuit Employment Initiatives

The Government of Nunavut (GN) is committed to building an effective, functional, skilled and representative public service. In support of Article 23 of the *Nunavut Land Claims Agreement* — to increase Inuit participation in government employment to a representative level of the population across all occupational categories — human resources management tools are provided that are current, effective and culturally sensitive.

The Department of Human Resources plays a key role in helping to achieve the goals of the GN in all departments and some agencies by assisting them in updating their Inuit Employment Plans and by providing leadership in the implementation of Inuit Employment Initiatives. An Inuit Employment Planning Committee has been reconvened to examine options for further means to increase Inuit employment. Consultations were conducted with Inuit representational organizations both to gain their expertise in employment and cultural matters and to further engage Inuit across Nunavut in public service employment planning.

One of the key tools provided is statistical reporting, including the “*Towards a Representative Public Service*” report. This report is completed on a quarterly basis and it demonstrates the success in recruitment and retention of beneficiary and non-beneficiary employees by all GN departments and some agencies. The report is comprehensive, covering all communities, broken down by beneficiary and non-beneficiary criteria plus other parameters including six occupational groups, showing data by human resource capacity and also by employee status (indeterminate, casual).

The March 31, 2012 “*Towards Representative Public Service*” report indicates an overall beneficiary representation in the GN of 50 percent. The proportions of beneficiary representation — in the Department of Culture, Language, Elders, and Youth at 74%, in the Department of Human Resources at 67% and in the Department of Executive and Intergovernmental Affairs at 66% —demonstrate continued recruitment progress in support of Article 23. Beneficiary representation continues to be high in the categories of Administrative Support at 91% and Paraprofessional at 69%.

Emphasis on mentoring and training will be continued in order to increase beneficiary representation, particularly in middle and senior management areas. Additional detailed information regarding beneficiary representation in the public service can be found in the Workforce Profile section of this report and online under the quarterly report.

Priority Hiring

The Priority Hiring Policy plays an important role in ensuring that the GN fulfills its obligation under Article 23 of the *Nunavut Land Claims Agreement*.

This policy gives priority consideration in the recruitment and selection of GN employees to Inuit beneficiaries. The Priority Hiring Policy is applied to all GN job competitions across Nunavut in all occupational categories.

If a beneficiary meets the qualifications for the position, as determined during the screening process, they will be interviewed for the position. If they are successful during the interview process, the applicant is hired. If a qualified beneficiary applicant is not identified during the screening or interview process, non-beneficiary candidates are then considered for the position. Non-beneficiary candidates applying on a competition who have been residents of Nunavut for greater than one year are screened and considered first for possible qualified applicants before review of non-resident non-beneficiary applicants.

Job opportunities are broadcast on local radio and also on cable television, which is often a more effective medium in geographically remote communities. In addition, the standard methods of job posting in newspapers, on bulletin boards, on employment websites and on the departmental website continue to be used. Recruitment companies have been retained to assist with certain highly specialized and critical senior and professional positions.

To further demonstrate the ongoing commitment of the GN toward increasing Inuit employment in the workplace, departments are increasingly offering term positions to successful non-beneficiary candidates, so as to ensure that future employment opportunities will become available to beneficiaries.

Summer Student Employment Equity Program

The Summer Student Employment Equity Program (SSEEP) is designed to provide challenging and enriching opportunities for secondary and post-secondary Nunavummiut students seeking to gain valuable work experience with the GN. The major objectives of this program are to expose students to the full variety of careers available within the public service and to encourage them to consider the GN as their employer of choice after graduation.

This program is aimed at providing employment opportunities that will complement the academic programs of students and help fund their education, thereby further encouraging students to complete their studies, develop critical skills, and improve their employability after graduation.

The SSEEP includes orientation, mentorship, and evaluation components which combined ensure that students are provided with the necessary support and development required to gain meaningful work experience.

The 2011-2012 SSEEP had a total of 132 students participating (79% beneficiary). In accordance with the consistent application of the Priority Hiring Policy, priority SSEEP placement is given to Nunavut high school and college students, as well as to those Nunavummiut who are studying at post secondary institutions located outside of the territory.

A quality assurance review was done on the operations of the program to evaluate if it is meeting the intended objectives set out for the program. It was found that while generally the program meets key objectives of providing skills to improve employability after graduation and funding that can assist with postsecondary education, improvements can be made and these were identified in recommendations to be implemented in following years.

Summer Student Employment Equity Program			
Fiscal Year	# Students	# Beneficiary	% Beneficiary
2011-12	132	104	79%
2010-11	164	125	76%

2001-02	71	51	72%
TOTAL	1599	1215	76%

Sivuliqtiksat Internship Program

The Sivuliqtiksat Internship Program is designed to provide development opportunities for beneficiaries seeking to take on leadership positions (at the Manager/Director level) and to help fill specialized positions that are unique to particular departments. This focus assists the GN in filling gaps in the senior, middle, professional and paraprofessional occupational categories.

Since 2002-03, twenty (20) interns have successfully graduated from the program. Thirteen (13) are still working in their target positions, two (2) were promoted to higher positions within the same department, one (1) changed position within their employing department, one (1) changed department for a job at the same level, and three (3) are no longer with the GN.

There are currently three (3) interns participating in the program. Between September, 2011 and March 31, 2012 eight (8) intern positions were approved but two (2) were cancelled due to the resignation of the trainers. The Sivuliqtiksat program is in the process of posting and staffing six (6) intern positions.

Sivuliqtiksat interns complete their customized learning plan objectives through workplace training, completion of distance education courses and participation in formal classroom learning. Orientation, mentoring and work exchange assignments are other components of this program. Each intern is assigned a designated trainer for the duration of their internship. Interns who successfully complete the program are appointed to their target positions.

Human Resources Legislative and Policy Framework

The *Public Service Act* guides the management and direction of the public service for the GN. The purpose of the *Public Service Act* is to describe public service authorities and rules. These include the appointment, direction, discipline, dismissal, terms and conditions of employment, as well as collective bargaining for GN employees.

Public Service Act Review

The current *Public Service Act* has been carried forward from the Government of the Northwest Territories, with a few minor amendments. It does not incorporate new acts in force in Nunavut, such as the *Human Rights Act*, the *Education Act*, or the *Inuit Language Protection Act*, and it does not reflect changes to collective agreements made since 1999. The current *Public Service Act* fails to reflect best practices in public sector labour law that have developed in the decades since this legislation was completely reviewed and revised. Furthermore, it does not clearly specify which agencies and organizations are subject to its provisions. Most importantly, the current *Public Service Act* does not include the Priority Hiring Policy and it does not consider Inuit societal values.

The GN Cabinet has directed the Minister of Human Resources to develop a *Public Service Act* that will be the foundation of a new approach to management of public sector employees, which will reflect and promote Inuit culture and meet the specific needs of Nunavut.

Research and consultation occurred with departmental partners and stakeholders, including Inuit representative organizations, in order to build upon the extensive inter-jurisdictional research and consultation which had been completed towards the development of a new *Public Service Act*.

Updated Human Resources Manual

The Human Resources Manual and associated policy, directives, and handbooks serves as an essential and guiding resource that provides direction to the public service on human resource practice and processes within the legislative framework of the *Public Service Act* and other guiding legislation and standards. The directives, originally comprising the Human Resources Manual, were transferred from the Government of Northwest Territories in 1999. Over the past 11 years as the terms and conditions of employees have changed, so have the directives.

A major rewrite of many policies and directives occurred in 2006. The Workplace Harassment Policy had a sunset date of 2010. The Department of Human Resources continues to update, revise and develop all directives of the Human Resources Manual as the terms and conditions of employment evolve over time and as best practices are developed inter-jurisdictionally.

Highlights in the development of policies and directives included Cabinet approval of an implementation ready Code of Values and Ethics, an updated Harassment Free Workplace policy and directive, and a new directive to create best practice and process in the resolution of workplace conflict. In addition, a manual has been developed for both the harassment prevention and workplace conflict resolution documents to assist supervisors and employees in the use of these valuable human resources tools.

Human Resources Development

The GN is committed to developing a competent and qualified public service, representative of the population it serves, through effective and efficient human resource development and good management. In keeping with this ongoing commitment, the Department of Human Resources places great emphasis on recruiting, retaining, developing and recognizing GN employees.

Recruitment

Staffing Capacity

Staffing capacity remains a challenge for the GN. As of March 2012, there were 4143 full-time positions available within the GN and of these positions 3187 were filled. Staffing capacity was 77% in March, 2012 from 76% in March 2011.

These statistics include the employees of the Qulliq Energy Corporation and other GN boards/agencies unless otherwise specified.

It must also be noted that when casuals are added to the pool of full-time positions, staffing capacity increases to approximately 94%.

The 2010 Report of the Auditor General of Canada on Human Resources Capacity stated "on average, it takes 318 days to fill a position, subtracting departmental planning and preparation and housing analysis and designation days, the figure stands at approximately 105 to 110 days to fill a position in a department from the moment of advertising until a candidate receives a job offer." The overall recruitment cycle has been shortened in duration and further gains are being worked towards as a priority. A recent sample taken in March was analyzed to determine competition completion time cycles with the following results:

Successful Competitions Average Days by Region	
HQ Iqaluit	91.9
Qikiqtaaluk	112.3
Kivalliq	94.9
Kitikmeot	83.03
GN Combined	91.43

The following tables present a 2-year staffing capacity summary by community, department and occupational category.

Staffing

The Department of Human Resources facilitates job competitions for GN departments in order to ensure a transparent and equitable hiring process. However, staffing authority has been delegated by the Minister of Human Resources to the Department of Health and Social Services to recruit specialized health positions and to Nunavut Arctic College for all college positions. The Department of Education is responsible for staffing teaching positions, as this group of employees falls under the Education Act.

Job Competitions

For the 2011-2012 fiscal year, the Department of Human Resources held 537 job competitions. This number does not include casual positions, direct appointments and transfer assignments.

A total of 9670 applications were received for the 537 advertised positions in 2011-2012, compared to 6153 applications received for the 463 positions in 2010-2011, and 7672 applicants for 520 advertised positions in 2009-2010.

In 2010-2012, of all the positions advertised, 310 were filled, compared to 333 filled in 2010-2011, and 365 in 2009-2010.

A total of 68 competitions were cancelled or re-advertised in 2011-2012, as compared to 46 positions in 2010-2011, and 156 positions in 2009-2010. The remaining competitions were not completed by the end of the fiscal year.

The department had a staffed career information booth at the Baffin Regional Chamber of Commerce (BRCC) Nunavut Trade Show in Iqaluit and established a booth for other communities with Community Economic Development Weeks also sponsored by BRCC through the year. School visits to promote careers in the public service were done in communities including Kugaaruk, Taloyoak, Gjoa Haven, and Kugluktuk.

A breakdown of job applications and hires by gender and beneficiary status, not including those recruited by other departments through delegated authority, is contained as follows.

2011-2012 Job Competitions

Casual Employment

The GN hires casual employees for temporary and emergency short-term needs and assignments within departments. For example, casual employees are hired to work on special projects, to assist with a high volume of work, or to fill in for employees on leave. Departments plan in advance for the hiring of casual employees based on anticipated workload and staff absences. As of March 31, 2012, a total of 1249 casuals were employed with the GN, of which 843 (67%) were beneficiaries.

Direct Appointments

The GN is committed to staffing positions through the competition process. However, there do exist certain special circumstances where appointments without competition are both necessary and justified. Direct appointments are mainly used to achieve a qualified and representative public service. They are used in rare situations where the regular recruitment process has been unsuccessful in filling hard-to-staff positions. Direct appointments are initiated by departments, after review and evaluation of the background information submitted, the appointments are recommended by the Department of Human Resources to the GN Cabinet who decide which appointments will be approved and can proceed.

During 2011-2012, Cabinet approved a total of 40 direct appointments. Of the 40 direct appointments that were approved, 35 (88%) were for beneficiaries.

Direct Appointments by Fiscal Year

Employee Retention

The retention rate for GN employees has increased significantly since 2000, when it stood at 69%. Since that time, the retention rate continued to increase. It remained at 84% in both 2005-2006 and 2006-2007, at 80% in 2007-2008, at 82% in 2008-2009, at 81% in 2009-2010, at 82% in 2010-2011 and is now at 84% in 2011-2012. While the retention rate has increased significantly since 2000, maintaining and increasing capacity remains a constant challenge for the GN. Capacity and retention are important issues throughout all jurisdictions in Canada. The retention of employees is a GN priority.

Employee Recognition

GN recognizes the contribution of employees who have served long periods of uninterrupted employment within the public service, meeting the needs of Nunavummiut, through the awarding of long-term service awards. These awards are presented at ceremonies that are held once every two years.

Employee Development

The Department of Human Resources coordinates the delivery of courses and training to improve the skill levels and knowledge base of GN employees. Ongoing training and development of employees is critical to building a strong and dedicated public service that is responsive to the needs of Nunavummiut.

The Department of Human Resources' Training and Development division is responsible for researching, designing, and delivering programs that address the general training needs of employees across the GN. The division works in partnership with all other departments in order to identify and respond to priority training needs for GN employees and to ensure that programs are relevant, cost effective and of high quality.

The division conducts a needs assessment annually across all four regions in the 1st quarter of each fiscal year to identify current training needs.

(Please note that participant statistics contained in this section of the report are not necessarily reflective of individual employee participation rates. For example, an individual employee may have registered for more than one course offered as part of a specific program. As such, this one employee's participation would be reflected multiple times in the aggregate training participation data.)

Nunavut Advanced Management Program

In 2011-2012, the Department of Human Resources continued its successful partnership with Saint Mary's University to deliver a 10-module management-training program for employees in Cambridge Bay. Faculty from Saint Mary's University travelled to Cambridge Bay each month to deliver a two-and-a-half (2.5) day module. Modules cover such areas as business communication, program evaluation, leadership and budgeting. Participants are required to complete eight (8) of 10 modules to complete the program. A unique feature of this program is that it gives participants the opportunity to learn from, and network with, other employees and also to participate in a management program that is "closer to home".

As of March 31, 2012, a total of 14 GN employees participated in the 2011-2012 program delivery. There were 11 graduates (55% beneficiaries) scheduled for the June, 2011 graduation. A total of 84 GN employees (75% beneficiaries) have graduated from the program since 2004-2005.

Employee Orientation

The Department of Human Resources hosts employee and cultural orientation sessions in communities across the territory on a regular basis. These sessions are designed to provide employees with general information about working for the GN and to complement the unique job-specific orientation initiatives of each GN department. In 2011-2012, a total of 46 employees attended one (1) of five (5) deliveries of the orientation session provided in Iqaluit. The session was offered to additional communities but there were not sufficient registration numbers to deliver the session. The session is offered and delivered on an annual basis dependent on demand and the number of new employees in a community.

2011-2012 Employee Orientation Sessions			
Community / Sessions	Participants	Beneficiary	Non-Beneficiary
Iqaluit/5	46	12	34
TOTAL	46	12	34

Cultural Orientation

The Department of Human Resources recognizes the importance of providing cultural orientation when training employees, in order to clearly identify and implement practical ways to incorporate Inuit Qaujimajatuqangit into the workplace.

The Department of Human Resources offers assistance to GN departments upon request and customizes and tailors Cultural Orientation sessions focused on Inuit Qaujimajatuqangit principles, as well as other activities designed to meet the specific needs of the department's employees.

Cultural Orientation sessions are delivered in conjunction with the Employee Orientation sessions. The orientations may take place in a classroom setting, or through seasonal one-day-long, on-the land sessions designed to introduce employees to the following:

- The History of Nunavut
- Inuit Societal Values
- Tamapta (Cabinet Mandate)
- Traditional Inuit Activities
- Team Work

In 2011-2012, a total of 56 employees (21% beneficiaries) attended one (1) of seven (7) different cultural orientation sessions provided in six (6) communities across Nunavut.

Learning and Development Opportunities

The Department of Human Resources' Learning and Development Program consists primarily of courses, workshops and seminars that are designed to enhance employees' knowledge, skills and abilities in their current positions, as well as helping to prepare them for higher positions within the GN. Programming is designed to meet general training needs in such areas as communication, computer literacy, financial management, administrative services, and human resources management.

In 2011-2012, a total of 469 employees completed learning and development activities sponsored by the Department of Human Resources. Ninety-four course deliveries took place in ten communities across Nunavut (Cambridge Bay, Gjoa Haven, Igloolik, Iqaluit, Kugluktuk, Pangnirtung, Pond Inlet, Baker Lake, Arviat, and Rankin Inlet). These included 59 different types of courses.

Learning and Development Program by Fiscal Year

Inuktitut/Inuinnaqtun Language Training

In 2011-2012, a total of 89 employees (49% beneficiary) completed 15 language training offered in ten (10) different communities across Nunavut. Inuktitut is offered in several courses dependent on the competency of the learner. The courses include Inuktitut as a Second Language, Pigiavik for beginners, then increasing in skill level through Allurvik to Allurvik II. A language keyboard course for Inuktitut syllabics was also offered. In addition, Inuinnaqtun training at an introductory level was delivered. The following charts indicate the courses offered and employee participation.

Government of Nunavut Certificate in Financial Management

In partnership with Nunavut Arctic College and the Department of Finance, the Department of Human Resources has been offering the GN Certificate in Financial Management. This non-accredited program provides an introduction to the financial planning and control processes of the government. The series of six (6) training modules is used to orient new employees, provide professional development for those currently in government, prepare employees for advancement, or to provide a refresher course for middle and senior managers. There is an exam at the end of each seminar and those who successfully complete and pass all modules receive a certificate. The training modules include:

1. Government Organization in Nunavut
2. Program Planning
3. Financial Authority
4. Control Systems
5. Control Procedures
6. Financial Administration

In 2011-2012, all Financial Management training module materials were updated. To date, a total of 13 GN employees have successfully completed the program. Another 52 employees (65% of whom are beneficiaries) have completed various component modules of the program to the extent that they have the potential to attain their Certificate in Financial Management at a later date. Since 2007-2008, a total of 257 employees (53% beneficiaries) have participated in the program.

Occupational Training Programs

Occupational Training Programs are comprehensive training programs targeted towards specific categories of positions that are found in all departments. In 2011-2012, the Department of Human Resources delivered three (3) Occupational Training Programs. Targeted training programs and communities for delivery included the following:

1. Human Resource Management — which was designed for human resource professional positions such as HR coordinators, assistants and officers, or positions with HR responsibilities that needed practical hands-on strategies.
2. Supervisory Development — which was designed for those in supervisory positions or front-line management positions to increase knowledge and skills in a variety of management practices. Provision is available through the program for candidates to work towards their Canadian Professional Supervisor designation.
3. Administrative Development — which was designed for advanced administrative positions such as executive assistants or secretaries, administrative assistants and office managers, to develop or increase skills in management. Provision is available through the program for candidates to work towards their Canadian Administrative Professional designation.

Program	Community	Completed	Beneficiary	Non-Beneficiary

Supervisory	Iqaluit	9	2	7
Supervisory Designation Module	Iqaluit	11	3	8
Administrative Development	Iqaluit	14	10	4
Administrative Development	Rankin Inlet	14	10	4
TOTALS		60	31	29

In 2011-2012, a total of 60 employees (52% beneficiaries) completed six (6) Occupational Training Programs delivered in two (2) communities across Nunavut.

Employee Relations and Job Evaluation

The Employee Relations and Job Evaluation Division of the Department of Human Resources provides services to all GN departments and agencies. This Division supports senior managers, excluding other employees and unionized employees who belong to either the Nunavut Teachers Association (NTA) or the Nunavut Employees Union (NEU). The Employee Relations and Job Evaluation Division has the responsibility for negotiating collective agreements with the three recognized bargaining units (NTA, NEU and QEC - NEU). This Division also provides the GN Workplace Health, Safety and Wellness Program, as well as the Employee Recognition Program.

Workplace Health, Safety, and Wellness Program

The GN is dedicated to providing a safe and respectful workplace for all employees. The Workplace Health, Safety and Wellness Program offers the Employee and Family Assistance Program plus Occupational Health and Safety training, so as to maintain a healthy, safe, respectful and productive work environment through a strong focus on respectful workplace training.

Health, Safety and Wellness Training and Information Sessions

The GN is committed to providing learning and development opportunities to improve employees' knowledge of health, safety and wellness practice and to ensure adherence to related legislation, standards, and guidelines. Training opportunities are available to employees throughout the territory to ensure that the basic requirements of Nunavut's Safety Act are met.

Health, safety and wellness training includes:

- First Aid and CPR
- Harassment Investigations
- Occupational Health and Safety
- Respectful Workplace
- Critical Incident Stress Management
- Investigation Processes
- Attendance Management

Employee and Family Assistance Program

"The Employee and Family Assistance Program (EFAP) is a confidential, 24-hour, toll-free telephone counseling service. When possible, face to face counseling is also available. The service is available to all employees and their family members. Tele-Health counseling sessions are also available on request throughout the territory."

Collective Bargaining

Nunavut Teachers' Association (NTA)

A collective agreement between the GN and NTA, covering approximately 600 employees is in place. The agreement is a four year contract from July 1, 2009 to June 20, 2013.

Qulliq Energy Corporation

A collective agreement between the GN and Qulliq Energy Corporation NEU members, covering approximately 150 employees, expired on December 31, 2010. A new agreement has not yet been achieved.

Nunavut Employees Union (NEU)

A collective agreement between the GN and NEU, covering approximately 2200 employees, expired on September 30, 2010. A new agreement has not yet been achieved.

Grievances and Staffing Appeals

Grievances

The grievance process is used to resolve disputes between unionized employees and the GN. Excluded staff members also have a grievance process under the Public Service Act. The Department of Human Resources continues to work with all departments, the NEU and the NTA to improve grievance procedures and to allow for meaningful discussions in order to proactively resolve workplace issues.

Active grievances at March 31st, 2012				
	Policy Grievance	Group Grievance	Individual Grievance	Total
NEU	8	5	68	81
NTA	1	0	0	1
Excluded	0	0	2	2

Policy Grievance: refers to situations where the union brings forth a complaint alleging a breach of the terms of the collective agreement resulting from the employer introducing a directive or policy that contravenes the collective agreement.

Group Grievance: refers to situations where more than one union member files a grievance alleging that the employer has failed to recognize their collective rights pertaining to specific terms and conditions of the collective agreement.

Individual Grievance: affects the individual griever, filed by one person, either by that person, or by the union on behalf of that person.

Staffing Appeals

The Department of Human Resources provides a staffing appeals process to eligible appellants. The staffing appeals process allows an employee or beneficiary who has applied on a position in the NEU bargaining unit to request a review of the competition if the applicant feels that the competition was improperly conducted. In addition to Iqaluit, regional offices in Cambridge Bay and Rankin Inlet also have the capacity to conduct staffing appeal hearings. An appeal hearing provides an objective review of the staffing process. There were 18 staffing appeals made in 2011-2012.

Job Evaluation

All non-teaching position descriptions in the public service are evaluated using the Hay Job Evaluation System to promote consistent, affordable, and fair rates of pay for public servants.

Bilingual Bonus

The responsibilities and language requirements specified in the job description determine the eligibility of the position for bilingual bonus. Typically, the types of positions receiving the bilingual bonus provide direct service to the public. Some examples are judicial officers, conservation officers, receptionists, instructors, and nurses.

Those employees (other than those assigned key duties of translation in their job descriptions) who are required to use two (2) or more of the official languages of Nunavut receive a bilingual bonus of one thousand five hundred dollars (\$1,500.00) per annum.

There are 1,446 positions designated as bilingual in the GN, including 1,402 for Inuktitut and 44 for French. The number of actual employees in filled positions receiving the bilingual bonus is outlined in the following table.

Employees Receiving Bilingual Bonus by Department at March 31, 2012

Human Resources Information and Payroll System

The Department of Community and Government Services, the Department of Finance and the Department of Human Resources in cooperation operate and maintain the integrated Human Resources Information and Payroll System (HRIPS). The system name is ePersonality.

The functionality of our business processes and the software elements that support data and information management continue to be enhanced. The base modules for Human Resources and Payroll modules are in place.

There is a comprehensive analysis underway to examine both the historical and current status of the existing system. Methods for improving reliability levels for data including reviewing, updating, and maintaining are an essential part of this analysis.

The analysis project includes the assistance of the software system vendor as is normal industry practice and will help drive the decision making process in respect to steps taken to further enhance our human resources information and payroll system capabilities.

Workforce Profile

The information contained in this section of the report is extracted from the Human Resource Information and Payroll System ¹ and the *Towards a Representative Public Service* reports. Job competition information is extracted from the Department of Human Resources' job competition database ². In order to provide for useful comparisons of workforce statistics, some of the graphs and charts contain historical data.

The Department of Human Resources and the Department of Finance continue to enhance information collection mechanisms through the implementation of ePersonality.

As of March, 2012, the average employee was 43.8 years of age, earned approximately \$83,016 a year and had 7.0 years of service in the GN. The average beneficiary male employee was 43 years of age, earned approximately \$74,942 a year and had 7.9 years of service. The average beneficiary female employee was 43.1 years of age, earned approximately \$72,615 a year and had 8.4 years of service. The average non-beneficiary male employee was 45.3 years of age, earned approximately \$94,688 a year and had 5.9 years of service. The average non-beneficiary female employee was 43.4 years of age, earned approximately \$90,767 a year and had 5.5 years of service.

¹ Information on employee gender, salary, years of service, age and pay group are for full-time equivalent (FTE) employees only.

² Job competition information does not include Nunavut Arctic College, teaching, or specialized health care positions.

* The significant increase reported for the departure rate of NTA members is due to how teacher assignments were recorded in the Human Resources Information and Payroll System (HRIPS). During the 2010-2011 fiscal year, teachers began to be entered into the HRIPS the same way as other GN employees.
